DuBois Corporate Capabilities: Food Industry

Sustainable Cleaning Solutions

DuBois has been a leader in providing innovative chemical solutions to the manufacturing industry. Our specialized representatives sell and service our chemistry, systems, programs, and solutions across North America.

Our goal is to be your partner in sustainability, by offering innovative cleaning solutions that strive to be Lean, Green, & Clean.

Being **Lean** is about reducing waste, improving efficiency, and reducing your cost through labor, water and energy savings.

Green is used to describe products or processes that have been designed and constructed with minimal negative impact to the environment and with an emphasis on conserving resources, energy and health.

Clean means achieving the quality of performance and cleanliness you require - guaranteed.
