

VersaClenz Hand Hygiene System
A Revolutionary New Dispensing System

VersaClenz Hand Hygiene System

A Revolutionary New Dispensing System

VersaClenz is a revolutionary new dispensing system that takes hand hygiene to a whole new level by offering simplicity. An all-in-one hand hygiene system, VersaClenz will dispense a spray (hand sanitizer), foam (hand soap), or liquid/gel (hand soap). This one dispenser system will dispense all the Hand Shake hand soaps and sanitizers, reducing inventory while maintaining product options. No need for special dispensers for different soaps and hand sanitizers because the VersaClenz dispenser does both. The universal bottle system allows them to be used in both the manual and touchless dispensers.

MD10030 – VersaClenz manual dispenser

AD10048 – VersaClenz touchless dispenser (requires 4 D batteries)

- Universal cartridges fit both manual and touchless versions
- ADA Compliant
- Holds 1250 mL refill cartridge
- Lockable cabinet
- Dispenses spray, foam, or gel depending on cartridge inserted
