DuBois Fleet Wash

DuBois offers the complete solution of chemicals, equipment, and service for your fleet washing needs. Our solutions provide thorough, consistent cleaning, while achieving minimal downtime. Our goal is to be your most responsive single-source supplier when it comes fleet cleaning

Chemicals

DuBois has 100 years of cleaning expertise. We use this expertise in a broad range of industries and applications to solve your complex fleet cleaning needs.

DuBois manufactures our own products with plants and warehouses across North America. Our products for large vehicle cleaning systems include:

- Alkaline Detergents
- Acidic Brighteners
- Waxes and Protectants

Equipment

DuBois designs and manufactures wash systems to meet your large vehicle cleaning needs, specializing in:

- Drive Thru Tunnels
- Interior Trailer Wash Out
- Pressure Washers
- Reclaim Systems

We understand the importance of controlling cost in your fleet wash cleaning program. Our systems are designed to meet this goal through reductions in both chemical and water use. We reduce chemical usage through controlled chemical application and water usage by controlled application and innovations such as our patented **SuperClear** reclaim system which can reduce water costs by up to 40%.

Service

DuBois Service Technicians take ownership and pride in every customer's system and understand the importance of your wash's operational efficiency. We design preventive and corrective maintenance programs to protect your capital investments.
